FDA, CPSC, APHIS, FSIS, AMS, and OTEXA
In partnership with FCBF present:

"Update on ACE/Single Window Trade Outreach"
Thursday, July 9, 2015
8: AM Registration - 8:30am to 12:30pm

The Florida Customs Brokers & Forwarders Association, Inc., is hosting an outreach that will help inform brokers and the trade community on some important changes that will affect the processing of import and export filings. As U.S. Customs and Border Protection's (CBP) Automated Commercial System (ACS) is being shut down later this year, the Border Interagency Executive Council (BIEC) will oversee CBP and its partner government agencies (PGAs) as they transition to collecting import/export data via the "single window" concept.

The presenters of this seminar are subject matter experts that develop policies and processes to collect electronic data for accelerated agency review with streamlined responses back to the users. The presenters are eager to engage with and consider the advice of industry and other relevant stakeholders regarding opportunities to make objective suggestions for improvement in collecting information. This is an opportunity to share experiences and expertise on the critical aspects that are unique to Customs processing.

Dates:	**Thursday, July 9, 2015**
